Professional Summary

Motivated and detail-oriented final-year Software Engineering student with a passion for Full-Stack Development. Proficient in HTML, CSS, JavaScript, and Tailwind CSS, with foundational knowledge of React.js, Vue.js, Python, and SQL. Experienced in building responsive, user-friendly web applications and committed to continuous learning. Skilled in both front-end and back-end development, with a strong focus on creating efficient and scalable solutions.

Education

Bachelor of Software Engineering
INES Ruhengeri, Musanze, Rwanda
(Expected Graduation: October 2025)

Technical Skills

- **Front-End Development:** HTML, CSS, JavaScript, Tailwind CSS, React.js, Vue.js.
- **Back-End Knowledge:** Node.js, Python (Basic), SQL (Basic).
- **Development Tools:** GitHub, VS Code, Figma (UI/UX design).
- **Other:** Responsive Web Design, Agile Development, Debugging & Optimization.
- **Soft Skills:** Creativity, problem-solving, teamwork, adaptability, strong communication, attention to detail, and ability to write clear documentation

---

Projects

Safe Haven – Mental Health Platform (Final Year Project)

- Developing a unique web-based platform to support users' mental health journeys.
- Implementing Mind Garden, an interactive feature to visualize personal progress.
- Designing intuitive UI/UX and ensuring a secure user experience.
- Technologies Used: HTML, CSS, JavaScript, Tailwind CSS.

To-Do List System (PHP & MySQL)

- Built a CRUD-based task manager with user authentication and session handling.
- Styled with CSS and added interactive features using JavaScript.

Interactive Portfolio Website

- Created a personal portfolio website to showcase projects and skills.
- Implemented a responsive design with engaging interactive elements.

Daily Health Reminder Web App

- Created a Vue.js application for setting personalized health reminders.
- Integrated IndexedDB for offline data storage and added a dark mode toggle**.**
- Deployed on Vercel with a clean and accessible UI.
- Deployed link: ([https://daily-health-reminder-web-app.vercel.app/])

Explore these projects and more on my GitHub**:** github.com/Montfort28

Certifications & Training

- **Beyond Success Leadership Program – Dr. John C. Maxwell (2024)**
  Participated in a leadership and personal growth initiative focused on maximizing potential and effective leadership strategies.
- **Frontend Project Certificate – Possinove (2025)**
  Participated in a 7-day challenge to build a complete Daily Health Reminder Web App using Vue.js, Tailwind CSS, and IndexedDB.
  Completed the challenge with a functional deployment, GitHub repository, and detailed documentation.

Languages

- **English:** Fluent
- **Kinyarwanda:** Native

Activities & Interests

- Passionate about UI/UX design and emerging front-end technologies, leadership development (Participant in Beyond Success by John C. Maxwell).
- Enthusiastic about learning React.js and Vue.js for dynamic web applications.
